

## Courses on NXP Power processors

ACSYS offers a large set of courses on NXP processors.

Each course details both hardware and software implementation of these processors.

Examples are provided to explain low level programming, which is needed to understand the boot program.

For on-site trainings, an additional day on Linux porting or Windows Embedded porting may be appended to the

processor course. Inquiry

Processor course	FCQ4	ECC1	e500mc implementation	3 days	Inquiry	FCQ1	ECC2	e5500 implementation	3 days	Inquiry
processor course	FCQ10	P1040 QorIQ implementation	7 days	Inquiry	FCQ11	P102X QorIQ implementation	6 days	Inquiry
